**विषय / Subject: Deviation from Schedule by Meenakshi Energy Limited**

Dear Sir,

This is to bring to your attention that significant under-injection, up to 344 MW and over-injection upto 580 MW, was observed from Meenakshi Energy Ltd Generating Station during certain instances in October 2026.

The maximum under injection of 344 MW occurred on 23rd October 2026 evening 18:40hrs. During this day, unit-4 was tripped during 07:41hrs and synched at 17:06hrs, still deviation was there during morning and evening hours.

It is also observed that over-injection of 583 MW due to excess buying of power in RTM and resulting in negative schedule for one time block.

This recurrent deviations by Meenakshi Energy Ltd during peak hours adversely affect grid reliability. This has already discussed on 231st OCC meeting held on 09th October 2025 and the following was deliberated:

a) Declare DC strictly as per on-bar unit availability.
b) Avoid over-declaration and scheduling beyond unit capacity.
c) Align schedules through assured sources such as DAM or bilateral trades.

It is therefore requested to kindly honour the schedules and refrain from any deviations to ensure secure and reliable grid operation.

भवदीय /Yours faithfully

वी गोविंदराज 29/10/2026
